

Include:

Isfix base which can be combined with the iCoo car seat iGuardfix (group 0+)

Highlights:

For vehicles that have a connection ISOFIX

Special guide rails for easy mounting the carseat

Compatible with iCoo iGuard Fix (car seat group 0+)

Productimages:

The iGuardfix ISOFIX base is compatible with the iCoo iGuardfix car seat. The ISOFIX BASE can be used as a practical addition to the iCoo Acrobat XL Plus Trio set.

The ISOFIX BASE can be secured into vehicles that have an ISOFIX connection. It is easy to assemble in the vehicle with just a few man oeuvres. Simply twist out the ISOFIX connectors by 180 degrees - lock in - done. The base unlocks with a one-handed locking mechanism and automatically locks into place after positioning it on the vehicle floor. This almost completely rules out the risk of using it incorrectly. This guarantees optimum safety.
